## Our Little Warrior

Was born February 3, 2021 at 2lbs 10oz on moms lunch break! LOL She was a fighter since the womb. After being born she was hospitalized for 5 months before coming home. When welcoming her home she was fully loved with joy & affection that brought her happiness. She broke through statistics & shared memories of 15 months with us when babies like her don't survive not even a year. She fought through & survived 2 heart surgeries, trach surgery, g tube surgery & etc. Despite everything she still found happiness with FAMILY. We believe she was here for the purpose of unity.
