You were one of my dearest friends, you were more of a mother figure to me. Our long conversations was always fun. You've given me excellent advice. You were the only person I knew who ever told me you were proud of me. I love and will miss you Chrissy.

Dear Chrissy, As you were growing up there were several bumps in the road, but you always had the strength to come thru it. I was so happy watching you graduate , there was a moment that we didn't know if that was going to happen ,but you it . Then you became a mother of 2 wonderful kids. You were so strong when you were told that your first born would have autism . You made sure he was taken care as if he was not dealing with autism . And then you found out you were having another child , a girl. We were so happy to hear you would be having a mini - me . Again, you were on a bumpy road for awhile. I know you wondered if you could raise 2 children ,but with the help of family and friends, You Made It. Yes, you were taken from us too soon, but we will see you in Matt and Trinity as they grow into adulthood. missing you so much, you will always be in my heart. Love ,Aunt Ellamae

Christina, I will always remember you as the girl full of energy, and light from middle school, all the way to high school, I will forever remember when I introduced my first born to you and you came over and held him and felt that same sense of pride I had welcoming a new life into this world. Now.. you are an angel yourself, you have fulfilled your purpose on this earth. that purpose was to touch as many souls as possible with your love, your personality, strength and stay for your family. Your memory will forever be carried out by your kids and family. May you rest in heavenly peace and continue to look down on all of us mourning you.

I will always miss you Christina, you were always my best friend and more, I always loved you from the first day we met, from July 31, 1995 in Tampa General, you saved my life, when you prayed for me to come back to this world and 7th grade to 12th grade we were always together almost every class, and everyday since, you always protected me only a call or text away and you were there for me. I can't wait till the day I'm in Heaven with you again, you are always my Guardian Angel. I know everyday I will be crying since you are gone but I will never forget you, you were my entire life. We are all celebrating Matt's birthday for you and his graduation. Pretty soon I'll get to hang out with him and Trinity like me and you planned before, you helped me thru life and I will always remember everything you always taught me. I'll be there with you soon, always love you forever.
