“ I had the biggest crush on Dane. He was a few grades older and a basketball star. He drove the cool car to school. I just thought he was the coolest thing around. When I was at their house I just prayed he was home so I could get a glimpse. Lol. He and I actually became friends. He taught me how to drive my stick when I kicked my mom out of my car within 5 min. I remember driving up to his house to pick him up and stalling on the big hill up to eagles nest and having to back up all the way down in the dark with tinted windows scared as hell. He did a great job teaching me how to drive. One of the last memories I have of Dane, he came over to my house on his senior year, just graduated and signed my yearbook and hung out for the night. It was one of those moments that I will never forget and because of that it brings tears to my eyes knowing he isn't here anymore. Sending my love to the Lundberg family, not only for Dane but for Daidri's sweet little girl Gabria!

“ I was saddened to learn of Dane’s passing. I was on the La Conner High School baseball coaching staff while he was in high school. He was a joy to coach. I also enjoyed watching him play basketball. My condolences to the family, I’ll be sending prayers for comfort and heat. RIP Dane
